Hi Ex. 6 Personal Privacy (PP)

He should know you're trying to reach him. I know all of the agencies are super busy and trying to work through the difficulties with remote work right now, so I'd give him a bit to respond. If it's like our phone system, there may be voicemail difficulties occurring.

Just wanted to follow up with you on the complaint I made with you on March 23, 2020. What is that dairy up to? They should of had permits for this change and it should have been filed with your office before they started their construction 3 months ago. What is going on? We need to know

**Ex. 6 PP / Ex. 7(C)**

**Ex. 6 PP / Ex. 7(C)**

When I spoke with you, you had no idea of what construction was going on at the dairy, you said you would look into it and get back

**Ex. 6 PP / Ex. 7(C)**

**Ex. 6 PP / Ex. 7(C)** I know I asked you several things to check into like the hoof dust and the roads that were constructed to exit on to 700 east, these are important too, but this canal water and barn waste and waste ponds being pimped thru these pivots are what we need to know about, this is important that we all know what is going on asap. Please let me know soon. Thank you
